RAILROADS ARE IMPROVING YARD FACILITIES NOW

(Cochise County Press.)

That an era of prosperity and new life will take place this year is apparent from the movement from the railroad companies in improving yard facilities and the number of inquiries that are being received for land since the matter of the irrigation project has been brought up with some certainty of work being commenced thereon next year, and last but not least, the recognition of some of the prominent citizens of Tucson in investing in Benson.

Last Monday the closing of the deal whereby the Benson Water company transferred its holdings to Tucson business men was made. Peter Jensen, Milton Fairless and Frank Hereford, who held the majority of the stock in the Benson Water company, went to Tucson on Tuesday and completed the transaction. Mr. Jensen has been in charge of the plant here for over three years, and he and his associates were the first men to give Benson a water company.

Tuesday the new company met at Tucson and elected officers and active control will be taken of the works here on June 1.

John Metz, vice president and cashier of the Merchants Bank and Trust company of Tucson, is president of the same city has been chosen manager and will arrive here next week.

The new company contemplate adding an electric plant, and as they have taken over the gas plant now in operation here, it is the intention to combine the three propositions under one head, all being centered on the property turned over with the water plant. The gas plant will be moved from the rear of Dr. Morrison's lot on Fourth street to the new electric plant is expected to be installed and in operation within ninety days.

It is also learned that the company's capitalization has been increased and the coming year will see them install an ice plant.

Benson will certainly be put in the modern up-to-date column. Since will have electric lights and gas, and has also possessed the purest of artesian water. Benson residents are to be congratulated, as the investment of outside capital means other business investments.

AUTO REPLACES HISTORIC MULE TEAM AT TUCSON

The historic four-mule team which Col. W. S. Sturges has owned for many years and which has brought the republican national committee to this city many times from his La Osa ranch, 80 miles southwest of Tucson, is to go into retirement, says the Citizen.

It is one more illustration of the survival of the speediest, for a big touring car will be used henceforth by Col. Sturges on his trips to this city from the ranch.

The republican committee purchased an automobile several weeks ago but as an auto is entirely different from a slow-moving mule or a bucking broncho, he has deferred taking out the car until he is entirely familiar with tactics of the machine.

When he returns to his ranch next week Col. Sturges will make his initial trip in his machine.

"I shall keep the mules on pasture, however, for emergencies in the event that the auto should need any assistance," remarked Col. Sturges.

PLAY FOR GOLF CHAMPIONSHIP.

MEMPHIS, Tenn., May 25.—The annual championship tournament of the Southern Golf association opened here tomorrow and will continue through the remainder of the week. Representatives golfers from many states are entered and the tournament promises to be the most successful in the history of the association.

BUBONIC PLAGUE IN CARACAS REAPPEARS

CARACAS, May 25.—Result of the reappearance of bubonic plague here President Gomez issued a decree today making the declaration of disease obligatory and providing for the establishment of a corps of maritime sanitary police to prevent the importation or transmission of the disease.

CROWDS THREATEN NEGRO.

CENTERVILLE, Iowa, May 25.—Great crowds of excited men are here to attend the trial of John Jensen, negro, who admitted having killed Clara Rosen on February 5. They declare they will lynch Jensen if the jury fails to inflict death penalty. The trial began today. Deputies are armed with shot guns and are patrolling the streets.

NEWS NOTES OF PASSING INTEREST FROM NOGALES

NOGALES, May 25.—A mining engineer, widely known for his ability in his profession was in Nogales Saturday in the interest of the company he represents. He had scarcely "struck" town before he sent the local correspondent a warning, and a warlike one, not to publish anything concerning him. This threat stirred up the reporter's blood of said correspondent, who naturally inferred there must be something doing in a mining way which might mean big development for Nogales and of interest to its residents.

The reporter trailed the roaring lion to his den and was informed that no newspaper ever chronicled his coming and going. Upon suggesting that he travel incognito beside wearing a mask, the gentlemanly (?) M. E. said no newspaper dared mention his name and he further snapped his right fingers and two thumbs excitedly in contempt for the same conveyors of news.

He is a big engineer, weighing in the neighborhood of one hundred and ninety pounds. He is registered at the Mocimex as R. S. Brooks.

DANCE FOR MISS LOMAX.

The night was filled with music and the cares that infest the day. Folded their tents like the Arabs and as silently stole away, upon the occasion of the dance tendered Miss Georgia Lomax by her friends at Athletic Hall on Saturday night, prior to her departure for her home in Carlsbad, New Mexico.

Such a coterie of handsomely groomed and gracious women would have honored a larger town than Nogales. In attendance were: Dr. and Mrs. A. I. Gustetter, Mr. and Mrs. Wright, Mr. and Mrs. Cummins, Mr. and Mrs. Harry Saxon, Mr. and Mrs. Otto Herald, Mr. and Mrs. F. H. Watkins, Mr. and Mrs. E. Chase, Mr. and Mrs. Geo. O'Brien, Mr. and Mrs. Munch, Mrs. Seitz, Mrs. Henshaw, Mrs. Crowell, Mrs. Lincoln, Mrs. Al Saxon, Misses Cooper, Rafael, Stearns, Mercer, Hannah, Fowler, Newman, Freeman, Messrs. Murphy, Fred Hannah, H. Hannah, Kelley, Cate, Elliott, C. Mundy, E. Fennel, Dr. Smelker, A. H. Bird, Jr., Thompson, Du Bush, J. C. Patton, Bracy Curtis, J. McIntire, Geo. McIntire. Mr. Patton was master of affairs and the success of the evening proved his efficiency as host.

NOGALES NEWS BRIEFS.

There has been an exodus of teachers from the Nogales schools, this past year or their summer vacations, among them Miss Ethel Harrison who left for her home in Texas. She will remain there until the September term begins.

Mrs. Allen T. Bird returned home from Tombstone last week. She was the guest of Judge and Mrs. Fletcher M. Doan and her visit extended over two weeks.

Miss Ethel Harrison, school census marshal of Nogales, district number one, turned in her report which is interesting as it shows the increase of enrollment during the year. Last year's statistics show 872 children in attendance and this year 1097, an increase of almost 26 per cent.

Captain J. W. Thomas visited town on Friday and Saturday from the Patagonia district, returning yesterday evening. He reported everything in flourishing condition among the mines in his neighborhood.

One day last week Abdul Hamid was admitted to our country at Naco, for the entry fee of four dollars. This Turk bearing the royal name did not have twelve carriages of wives with him, which fact may have accounted for the peaceful expression on his face.

ARREST TRAMP WITH \$800 AS TRAIN ROBBER SUSPECT

CHEYENNE, May 25.—A tramp giving the name of L. U. Steinhoff was arrested tonight as a suspected accomplice in the Union Pacific fall robbery near Omaha Saturday night. When arrested bank notes to the amount of \$800 issued by Reno, Seattle, Denver and Spokane and Iowa banks were found on him.

TUBERCULOSIS ASSOCIATION IS NOW FORMED

An association for the study and prevention of tuberculosis was organized at a mass meeting Thursday evening in the high school auditorium at Prescott. The association is named the Arizona Association for the Study and Prevention of Tuberculosis. It will be affiliated with the national association. The constitution and by-laws of the California association were adopted. A call for membership will be issued later by the officers of the association.

Dr. John W. Foss of Phoenix was elected president; President K. G. Babcock of the Tucson university, first vice president; Dr. John E. Bacon of Tombstone, second vice president; Rev. J. E. Crutchfield of Phoenix, third vice president; Lloyd Christy of Phoenix, treasurer, and Dr. John W. Foss of Prescott, secretary.

The consulting medical board of the association is Dr. O. E. Plath of Phoenix, Dr. H. T. Southworth of Prescott, Dr. W. V. Whitmore of Tucson, and Dr. W. D. Cutter of Bisbee.

Governor Sloan presided. In his opening speech he referred to the good work done by the Arizona Medical society and referred to the duties of the physicians in combating the ravages of the great white plague.

Dr. Jarvis Barlow was the next speaker. He said that the meeting had a larger attendance and was more successful than any meeting held by the Los Angeles society during the two years first following its organization.

He explained the nature of the dread disease known as tuberculosis and referred to the lack of danger from its infection if the person afflicted were cleanly in habits. He referred to the following agencies for the prevention of the spread of the disease in the order of their importance:

First, dispensaries; second, visiting nurses; third, day and night camps; fourth, sanitariums for the cure of curable cases; fifth, hospitals for the treatment of incurable cases.

The doctor declared during his address that if compared to have only one of these agencies that he would prefer the nurse. The next most important agency he considered the day camp as it is cheap and effective in locating the sick and preventing the spread of disease. He said the tubercular who destroys his sputum and keeps clean is no danger to anybody.

Dr. Cunningham, resident physician of the Barlow sanitarium of Los Angeles, described in detail and in a very interesting manner the method of treatment of tuberculosis in his institution.

Rev. J. E. Crutchfield, presiding elder of the M. E. church, South of Phoenix, described how church workers can prevent the spread of the disease.
